FAETM

On-Site Learning

Let FAE provide the solution to your training needs.

FAE's On-Site learning solution allows you to select:

- The **date** that permits maximum staff attendance and does not interfere with client meetings, filing dates, or major projects.
- The **location** for training where it best suits you—in your office.
- The **level** of competency (courses are designed to meet your staff's needs and experience levels).
- The **content** features top-notch instructors who'll work directly with you to ensure that your course addresses your specific business needs.
- The **duration** of classes—either 4 hours or 8 hours.

The Benefits of FAE On-Site Learning Are:

Save Money—FAE on-site courses are reasonably priced. With on-site training, you will enjoy substantial savings on the cost of each person's tuition, travel, and extra expenses by bringing *us* to *your* location.

Realize Effective Learning—Create a synergistic environment of learning, gained from training your professionals together and inspiring each other.

Gain Technical Credibility—With on-site training, your staff will become more competent and technically qualified. Your team will be current with the ever-changing developments in the accounting profession, business, and industry.

Develop Your Team—Boost morale by showing your staff that their training needs are important and that skill-building is essential to stay competitive.
