We have reviewed the Proposed Accounting Standards Update, *Transfers and Servicing (Topic 860), Reconsideration of Effective Control for Repurchase Agreements* (the ASU). Overall, we agree with the proposed changes in the ASU, and we have provided the following responses to the questions for respondents.

**Question 1:** Would the proposed amendments represent an improvement and simplification to the assessment of effective control for agreements that both entitle and obligate the transferor to repurchase or redeem the financial assets before their maturity? Are the proposed amendments clear and appropriate? Will the proposed amendments result in financial reporting that provides users with decision-useful information?

**Response:**
We believe that the proposed amendments are clear and appropriate and would improve financial reporting as described, and the information will help users better understand the liquidity position of a company.

**Question 2:** The Board plans to require that the amendments in the final Update be effective for entities as of the beginning of the first interim or annual period after its issuance. Are there any significant operational issues that the Board should consider in determining the appropriate effective date for the final amendments?

**Response:**
We are not aware of any significant operational issues to be considered.

**Question 3:** Paragraphs BC16 and BC17 set out the Board’s assessment of the costs and benefits of the proposed requirements. Do you agree with the Board’s assessment that the benefits of the proposals outweigh the cost? Why or why not?

**Response:**
We agree that the benefits outweigh the costs. The Amendment eliminates the requirement of the transferor's ability criterion, thereby simplifying the determination of effective control.
Question 4: Should the amendments in this proposed Update be different for nonpublic entities (private companies and not-for-profit organizations)? If the amendments in this proposed Update should be applied differently to nonpublic entities, please provide a rationale for why.

Response:
We believe these amendments should be applied on the same basis whether an entity is a public entity or a nonpublic entity.
